Ladies and gentlemen,

as it is customary in our magazine, here are some introductory lines. This time it came out on me and I just want to point out that I am not a writer. But I would like to mention how much you - our customers - are valued. Your satisfaction is first and foremost for us. You motivate us to work further and inspire us to look for new products.

On the following pages, we have chosen a variety of news to inspire you. Crafting with unconventional and interesting materials such as Concrete, Foam or Rope.

If you will attend or even prepare a wedding in the coming months, you will appreciate our tips for decorating dresses and accessories or wedding table.

I wish you a lot of joy in creating and crafting and thank you for your patronage.

Sincerely,
Dagmar Seidlerová
Sales Director
